# WHAT IS IT?

I'mOnIt! is the easy to use, flexible Equipment and Facilities Maintenance Management & Compliance System. It eliminates the headaches associated with planning operations, scheduling tasks, work order management and reporting analytics. It also provides a neat, paperless work flow system compatible with mobile devices that field operations demand.

WHO USES IT?

Schools

Campus, Facilities Maintenance & Compliance

Manufacturing

Shop Equipment-Preventative Maintenance & Inventory

Construction

Equipment Maintenance and Inventory

Field Service Enterprises

Maintenance and General Operations

Property Managers

Facilities Maintenance

Assisted Living Facilities

Maintenance and Compliance

Food Processing

Plant Operations, Maintenance & Compliance

HOW DOES IT HELP?

- Easy Task Scheduling for Preventive Maintenance & Compliance Requirements
- Integrated Parts Tracking and Control
- Cost and Activity Captured for all Maintenance Events
- Efficient Equipment Usage Capture
- Automatic Tracking of Work Order Cycle
- Completely Paperless Operation When a "Totally Green" Operation is a Goal
- Forecasting Tools to Help with Operations Planning
- Core Reports and Easy Data Export to Excel to Fulfill any Reporting Requirements

Flexible, to fit a variety of needs, easy to use, so all will use it. **I'mOnIt!** gives operations management assistance that generates a positive contribution to the enterprise's bottom line while providing the "peace of mind" that nothing is "falling through the cracks."

With a one-time license cost of under $500, **I'mOnIt!** is the value-priced CMMS leader -- tailor-made for an enterprise looking to upgrade from a pen-and-paper or home-cooked Excel based process to a fully automated Maintenance Management System. From a company with 35 years of providing "Business-Minded Technology" and over 500 users in a broad commercial spectrum, **I'mOnIt!** users take comfort in the fact that service and support is only a click away.
